## A SECOND BOMB

The Palazzo Alvieri in Rome At-  
tacked by Dynamiters.

Police Warned of Anarchist Plots Un-  
able to Foil Them.

A BOY'S CURIOSITY AVERTS A SERIOUS  
CATASTROPHE.

He Inspected a Fecular Mass and Found  
a Burning Fuse—More Warnings of Ex-  
plosions Plotted Received To-Day—  
Jules Ferry Will Have a State Funeral—  
Eulogistic Editorials in All Parisian  
Newspapers—Crispi and Panama  
Boothe.

Bomb, March 18.—Following close upon the unsuccessful attempt to blow up the Ancient Mattel Palace, the residence of Wm. Porter, American Minister to Italy, another dynamite outrage was attempted to-day at the Palazzo Alvieri, the headquarters of the Guardie Nobili, one of the military organizations whose duty it is to attend the Pope and to be present at great religious functions at the Vatican. Early this morning a boy who was passing the Palazzo Alvieri saw a mass of what he at first thought was mortar being upon the stairs of the palace. With boyish curiosity he ran up the steps and was surprised to see a burning fuse extending from the mass. The boy at once stamped out the fuse with his feet, and then notified the police. Gendarmes were at once sent to the police and were not long in ascertaining that what the boy had at first mistaken for a mass of mortar was a small bomb containing dynamite, gunpowder, or other explosive. The bomb was encased in a thin coating of plaster of Paris, which in the opinion of experts would have added to the destruction that would have been wrought had an explosion occurred. The news of the attempted outrage has caused considerable excitement in the city. A number of arrests of Anarchists have been made in the city recently, and this fact has apparently caused the friends of the men arrested to attempt these outrages as a means of revenge.

It has transpired since the affair of yesterday at the Ancient Mattel Palace that the police have been warned from some unknown source that attempts would be made to cause explosions in various parts of the city. Notwithstanding the warning, the miscreants who planned this outrage did not dare to trust themselves to their bomb on the steps of the Palazzo Alvieri, which is one of the best known buildings in the city. Orders have now been issued, however, that a strict watch be kept on all suspicious characters, and the police hope to soon have the conspirators in custody. Another warning was received to-day that further attempts would be made to cause explosions.

JULES FERRY.

EULOGISTIC WORDS FOR THE DEAD FRENCH  
MAN FROM FRIEND AND FOE.

Paris, March 18.—The room in which Jules Ferry died has been transformed into a mortuary and is hung with draperies worked with silver. The public in the meantime are not allowed to view the remains. It is expected that the Government will propose a State funeral, when the body will be removed to the Luxembourg. The will of the deceased states that his remains shall be buried at Foucaupourt, near the place where he resided during his retirement from public life.

Ribot took the news of Ferry's death to President Carnot, who was very much affected by the announcement. The President said that the disappearance of one of the "true forces of the republic—a precious reserve."

The Republican newspapers appear bordered in black.

Le Radical says this morning: "He did not hold the full position to which his manly virtues and robust individuality entitled him. Republic will mourn him with the noblest citizens and best servants of the country."

La Justice says:

We stoutly combat him, but standing beside his tomb we recall the fact that he took part with energy and in the struggle to secure the triumph of the Republic."

The Radical says:

His death will comfort nobody, while it will afflict his friends.

Le Soleil (Oriental) says:

All that the Republic regards as its work sprang from Ferry. If he deserved well of Republicans he was of evil to the country, for by excluding from education the idea of God he became an important factor in the national despotism.

ARGENTINIAN FINANCES.

London, March 18.—Leading financial weekly publications and most of the daily newspapers make no mention of the report that the Buenos Ayres Waterworks question has been settled by an issue of Government bonds.

The Standard and the Daily News are the only papers that refer to the question, and they do so prematurely. The rise in Argentine securities yesterday was one-quarter of 1 cent, and it is attributed to reports of settlement between the Argentine National Government and the railways.

CRISSI INVOLVED.

THE EX-PREMIEUR OF ITALY HAD 60,000 FRANCS  
OF PANAMA FUNDS.

Paris, March 1.—Le Rappel states that the liquidator of the late Baron Reinhac has communicated to the Committee of Investigation of the Chamber of Deputies a document which belonged to Baron Reinhac and which gives the names and dates of various Panamanian payments, including one payment of 60,000 francs, alleged to have been made to Sirnac Crisp, the former Premier of Argentina.

The statement of Le Rappel has caused a sensation.

M. Waller, Magistrate, takes the place of M. Franqueline as examining Magistrate in the Panama cases during the absence of M. Franqueline on his vacation. M. Franqueline is said to be much exhausted by his protracted labors.

A GIFT FOR MME. WADDINGTON.

London, March 18.—Lady Spanier presented last evening a magnificent gold pendant, incrusted with gems,

to Mme. Waddington, wife of the French Ambassador, who is about to return to Paris. The presentation was made in the presence of scores of titled women who had subscribed to purchase the gift. Among those present were Mr. and Mrs. John Mackay, Mrs. Ward, Waldron, Astor, Mrs. Samuels, Reynolds and Mrs. Henry White. The pendant was given as a souvenir of Mrs. Waddington's residence in London.

LORD SALISBURY MUCH BETTER.  
London, March 18.—Lord Salisbury is rapidly recovering. It is announced this morning that he is much better than at any time since he was first attacked by the disease.

MAT KILEY'S DEATH.

Fatal Result of the Wound Inflicted by  
Mrs. Frush.

Matt Kiley died at St. John's Hospital last night from the effect of the bullet wound in the neck inflicted by his mistress, Mrs. Mary Frush, alias Mollie Ward, two weeks ago. Mrs. Frush is still in jail, where she has been confined since the shooting on a charge of assault to kill, bail having been refused owing to the critical condition of her victim. She now has no answer to a charge of murder.

The shooting was done at 2310 Pine street, where Mrs. Frush boarded. Kiley called her to him, found that she had been drinking heavily, quizzed her, and then proposed that she should go to a dance. He then fired three shots at him, one of which took effect in the side of his neck, riving down and narrowly missing his spinal column and major vessels. No one witnessed the killing, but a friend of the woman's hair which was caught in the hammer of the revolver was torn off. After the struggle, after the shooting Kiley ran from the house, and the woman followed him, and, jumping into his buggy, drove away. She was arrested at Canyon City, Grant Co., was brought here last evening. Mrs. Shaw, the widow of the dead man, who was arrested with one Gallin, the hired man of the Shaw household, on suspicion of having caused Shaw's death, has made a confession. She declares that Gallin, with whom she had been intimate, killed her husband with a hammer and then carried the lifeless body to a barn in which was stabled a stallion. He then dispatched a boy to town to spread the report that Shaw had been kicked to death by the horse. In the meantime the murderer burned the handle of the hammer and threw the head of it into deep snow, where it was afterward found. Mrs. Shaw has been twice divorced. Shaw had been twice married, but had been married but a few months. Her first husband, A. L. Molesher, was convicted in Grant County on a criminal charge and sent to the penitentiary. Later she married one Haskett at Bay City, I. T., last November. She is a small dark complexioned woman about 40 years of age.

THE INDICTMENT QUASHED.

MIDDLEBURY, N. Y., March 18.—In 1888 Mrs. Carrie Howard and John Kelf of Potorboro were arrested and indicted for the murder by arsenical poisoning of Mrs. Howard's husband, a well-to-do farmer of that place. The woman was tried and acquitted, but the acquittal caused much surprise and indignation on the part of the people, who believed that the woman, who had been compelled to leave town, Kelf, who had been employed by Howard as a farm hand, was confined in the county jail until the following year when he was transferred to Madison County, Chenango County, and Kelf was freed.

The minority realized that it would be useless to make any further fight against the measure, and it went through a gallop. The majority, however, voted to let the bill stand, and during that period the principal witness against him died. Finally the case was transferred from Madison County to the state prison at Utica, where he was tried and sentenced to be hanged. The man remained in jail year after year for seven years, while his case was undergoing a series of legal applications for new trials, and during that period the principal witness against him died. Finally the case was transferred to the state prison at Utica, where he was tried and sentenced to be hanged. The man remained in jail year after year for seven years, while his case was undergoing a series of legal applications for new trials, and during that period the principal witness against him died. **GIVING THE IRISH**  
Lawyer Choate and Dr. Depew Talk at St. Patrick's Night Dinners.

New York, March 15.—Joseph H. Choate, speaking at the dinner given by the Friends Sons of St. Patrick, received more applause when he arose than had been done before. After saying that he preferred to speak of how the Irish ruled away from home rather than of home rule, and referring to the "scouts" the Irish had captured in America, he said:

"There is a cure for Ireland's woes and feebilities to-day. It is a strong measure that I advocate. I would like to see your children and your children's children with the spoils you have taken from America in your possession. You can't do it, but you can try to strike the blow. Gentlemen, the G. O. M. needs you. He is cleaner for you. That of this song is well known. We are coming to you. The strength of this song is \$100,000,000. It would be a terrible blow to bring the wheat up to the market."

C. W. Davis, the wheat predictor, says the wheat crop of wheat will be a blessing to you.

ILLINOIS EARLY SOWING IS ALL RIGHT.

SPRINGFIELD, Ill., March 15.—Chairman of the State Board of Agriculture expresses the opinion that early sown wheat is in fair condition, but that late sown wheat has been injured to a greater or less extent by the severe winter. This opinion is based on reports sent to him by his correspondents.

"In the West," he said, "the ground has been very dry and the snow will give enough moisture to bring the wheat up to the market. Everything now depends on favorable conditions."

C. W. Davis, the wheat predictor, says the wheat crop of wheat will be a blessing to you.

MISSOURI WHEAT YIELD IS PER CENT.

JEROME, Colo., March 15.—The outlook for wheat has greatly improved within the last two weeks. Fields that appeared barren six weeks ago show signs of life. In the central and western portions of the State the indications are promising, and a fair harvest seems apparent. The most reliable information places the yield at 70 per cent.

HALF A GROWTH IN SOUTHERN INDIANA.

INDIANAPOLIS, Ind., March 15.—The best obtainable regarding the condition of winter wheat in Indiana comes from private sources to the State Board of Agriculture, and indicates a marked falling off in condition since the middle of February, up to which time the growth had been protected from the severe winter. This opinion is based on reports sent to him by his correspondents.

Mr. Depew turned his attention to a speech made by Mr. Gladstone, which was presented by Mr. Gladstone, which he said went beyond the aspirations of Grattan, O'Connell or Parnell.

Are our specialties. We promise perfect satisfaction in every particular and live up to our promise. Heffernan, 1016 Olive street.

THE KNIGHTS' BANQUET.

Annual St. Patrick Evening Feast—The Hibernian Celebration Last Evening.

The twenty-seventh annual banquet of the Knights of St. Patrick of this city was held in the ladies' ordinary of the Lindell last night. Fr. G. D. Power invoked the benediction at 9:30 o'clock, after which the feasting began. President Patrick Burns delivered a short address upon the pleasure and value of the occasion, after which James Jeffrey Roche, editor of the Boston Pilot, was introduced and responded to the toast, "The Day We Celebrate" delivered the address of the evening.

The speaker began by pointing out that of the many saints of high standing, the unchangeable character of the Irish race was most remarkable.

Other races had passed away, but though the Irish had suffered oppression and diminution by war, pestilence, famine time and time again, they had not lost their identity lost. In conclusion, he paid a glowing tribute to Gladstone.

The speaker began by pointing out that of the many saints of high standing, the unchangeable character of the Irish race was most remarkable.

THE AMOUNT INVOLVED.

In the case against the Western Union Telegraph Co., the city pays for a rental of 1,500 poles of \$2 per pole per year from July 1, 1884, until the date of bringing suit, which was some three years later, the amount then aggregating \$22,656. Supposing the new trial to result in favor of the city it will of course establish the liability of the Western Union for the tax for the subsequent years, and, therefore, in the nine years since the ordinance became operative the telegraph company owes the city (including interest) about \$70,000, the exact amount of power which each municipality has under its charter.

Mr. Depew then turned his attention to a speech made by Mr. Gladstone, which he said went beyond the aspirations of Grattan, O'Connell or Parnell.

WRECKED WASHINGTON'S HEAD.

Fourty Pounds of Dynamite Let Go in a Palace Quarry.

NEW YORK, March 15.—One of the biggest loads of dynamite that has ever taken place in a quarry, if not the biggest, occurred yesterday at the Palisade quarries, about two miles from Fort Lee. The Palisades at this point, which is just opposite Fort Washington, were shorn of about 1,000 feet of surface rock, the displacement being estimated at 300 feet and falling into the rock. "Washington's Head" has been a landmark for many years for boatmen and tourists going up and down the river, looking curiously at just what it came to view through its resemblance to that of the Father of His Country. Washington's head no more, however, and falling down in the water have caused by the blast, and broken in a hundred places at the foot of the Palisades. The blast was hardly heard to quiver a little, like an infant earthquake. Two miles or more of fissured rock makes a good butt, and the shock was pretty well distributed when it reached the village. About forty pounds of dynamite were used, and the weight of the rock displaced is estimated at 100,000 tons, at the lowest calculation.

THE PLATTE FLOODED.

Ice Deposits on Farm Lands—Great Disaster Near Rogers.

OMAHA, Neb., March 15.—The Platte River has again overflowed its banks and is carrying away farm lands and houses. In consequence of the late winter weather, it has spread all over the country adjacent a few miles northwest between Valley and Schuyler and many cattle have been drowned. Ice has been carried far out and by the water receding has been dumped on the land. In one place the ice is twenty feet high over a twenty-five acre tract.

A man returned from Fremont to his home to find his cabin floating in the water, with all his wife and children sitting on the roof with all ice around them.

At another place near Rogers, where creek empties into the Platte, the backwater has flooded the entire country, submerging many farms and carrying away hundreds of sheep and cattle. The heavy snow which fell during the last few days is rapidly melting and it is believed that this will continue until the waters. No human lives have yet been lost.

SAGINAW IN DANGER.

SAGINAW, Mich., March 15.—The river is still rising, many of the docks are now submerged and a further rise of six inches will put Tilden street, which parallels the river, under water. The Rottabawasse is over its banks and fully a quarter of a mile on each side is submerged. The same conditions exist at the mouth of the Saginaw river. Huge cakes of ice are being carried along by the swift current, but dynamiters are at work above the city and a blockade is improbable.

COUNCIL AND HOUSE.

The Bell Telephone Co. Contest Bill Laid Over Other Legislators.

D. C. Fall.

D. C. Ball, the cotton broker of 27 South Main street, this morning swore out a warrant for burglary against Robert King, colored. About 2 o'clock Thursday morning King was awakened by the ringing of a burglar alarm at his residence, No. 1601 South Grand, and going down to the front door he saw a man at the window. He fired three shots at the fellow, who fell and cried that he was killed, but when he got outside the man was gone. A trail of blood led to the police found King at his home, No. 3945 Cass, and on examination found a bullet in his cheek and another in his left leg. He told a story about being shot and robbed by another negro named Arthur Williams, alias Hall, who was a constable in his employ, and as he has a bad record, arrested him on suspicion of being the burglar, for which he was held without bail and brought him to day. He is now held a prisoner at the City Hospital, where he is under treatment.

A Girl's Long Sleep.

BALTIMORE, Md., March 15.—Miss Lizzie Enos, 15-years-old, has been in an inexplicable trance for ten days past. She faints in church on the 9th inst. and has been unconscious ever since. Doctors can offer no explanation of the causes of her condition.

A Fact

It is an established fact that the only natural flavors in the market are

**THE WHEAT OUTLOOK.**

An Encouraging Showman in Several States Delights Farmers.

TOPEKA, Kan., March 15.—From all the information that can be secured regarding the new wheat crop in Kansas, it can be said that it is far from encouraging. In the eastern half of the State the plants are generally in fair condition where the wheat has sprouted, but in the western division a great many fields were not sown until January, and some as late as March. In many places there has not been any moisture to cause the wheat to sprout, and it lies in the ground unsprouted.

Secretary Mohr of the Agricultural Department said that he had received no official report from the commissioners of the Agricultural Department to his correspondents but none had been received.

After saying that he preferred to speak of how the Irish ruled away from home rather than of home rule, and referring to the "scouts" the Irish had captured in America, he said:

"There is a cure for Ireland's woes and feebilities to-day. It is a strong measure that I advocate. I would like to see your children and your children's children with the spoils you have taken from America in your possession. He is cleaner for you. That of this song is well known. We are coming to you. The strength of this song is \$100,000,000. It would be a terrible blow to bring the wheat up to the market."

C. W. Davis, the wheat predictor, says the wheat crop of wheat will be a blessing to you.

ILLINOIS EARLY SOWING IS ALL RIGHT.

SPRINGFIELD, Ill., March 15.—Chairman of the State Board of Agriculture expresses the opinion that early sown wheat is in fair condition, but that late sown wheat has been injured to a greater or less extent by the severe winter. This opinion is based on reports sent to him by his correspondents.

"In the West," he said, "the ground has been very dry and the snow will give enough moisture to bring the wheat up to the market. Everything now depends on favorable conditions."

C. W. Davis, the wheat predictor, says the wheat crop of wheat will be a blessing to you.

MISSOURI WHEAT YIELD IS PER CENT.

JEROME, Colo., March 15.—The outlook for wheat has greatly improved within the last two weeks. Fields that appeared barren six weeks ago show signs of life. In the central and western portions of the State the indications are promising, and a fair harvest seems apparent. The most reliable information places the yield at 70 per cent.

**DR. BRIGGS IS DEFEATED.**

Presbyterian Ministers Declare Their Belief in the Inerrancy of the Bible.

CINCINNATI, O., March 15.—The ballot of the Presbyterian ministers on the Briggs and Smith heresy cases and on the doctrine of biblical inerrancy, inaugurated some time ago, is practically completed.

A few scattering votes from far distant regions, India, Asia and Africa, will drop in during the course of the next two months, but these cannot change results.

Practically defeated by a majority equal to that in the last Presbyterian General Assembly at Philadelphia.

The Bible is also endorsed as a book practically without error, and containing the true messages of God to man. Higher criticism, which has been a dominant factor in theological discussion, is condemned as destructive and as an aid to infidelity.

Blank ballots were sent to every twelfth Presbyterian minister whose name was found in the list of communicants of the General Assembly for 1892. Of the 220 ballots received 229 endorse the deliverance of the General Assembly at Portland on the inerrancy of the Bible.

Here is what Mrs. Lydia A. Cornell of Ridgedale, Conn., says of this great spring meeting:

"I am well satisfied with extensive protection and for three months I have not been ill. We know what I suffered. Many times I thought I was dying. I saw Dr. Greene's Nervura blood and nerve remedy advertised in the papers and sent at once and bought a bottle.

**ARE YOU WEAK?**

Do You Feel Tired, Nervous and Prostrated?

Here Is Some Advice for You by Two Prominent Ladies.

Spring a Dangerous Time—You Should Heed This Matter Now.

This is not only the season of sickness, but every season is dangerous. Spring is the season to strengthen your nerves, invigorate your blood and start up the action of all the organs. In other words, you need a spring medicine and should use Dr. Greene's Nervura blood and nerve remedy.

Here is what Mrs. Lydia A. Cornell of Ridgedale, Conn., says of this great spring meeting:

"I am well satisfied with extensive protection and for three months I have not been ill. We know what I suffered. Many times I thought I was dying. I saw Dr. Greene's Nervura blood and nerve remedy advertised in the papers and sent at once and bought a bottle.

**RESPECTING HIS WIFE.**

The Body of the Late Consul at Odessa Still Unburied.

BENNINGTON, Vt., March 18.—The body of Timothy Smith, recently United States Consul at Odessa, Russia, who dropped dead in a Middlebury hotel Feb. 20, is still unburied. His children, although morally certain death was from natural causes, have kept the body in the house to honor to their father's wish that he be not buried until after decomposition had set in.

**A QUICK ENDING.**

CERRO GORDO, Ia., March 18.—Yesterday afternoon Mrs. Brew, wife of Henry Brew, a tile manufacturer, dropped dead from heart disease, which was brought on by rheumatism. One of her sons and a neighbor woman were in the room at the time and she died before either could reach her. The funeral will be held to-morrow at the M. E. Church.

**DROPPED DEAD AT A BANQUET.**

BOSTON, March 18.—John H. McDonough, Chairman of the Democratic State Committee, dropped dead at the dinner of the Tammany Club.

**SATURDAY IS THE DAY FOR BOYS**  
In our Boys' Clothing Department. Look at our prices—look at our goods. No better suits to be had, nor lower prices for the same suits. Confirmation suits, school suits and dress suits for boys' wear.

**MILLS & AVERILL,**  
Broadway and Pine.

**Jealousy and Ruin.**

WASHINGTON, D. C., March 18.—Mrs. Kimon Nicolaides, the wife of a proprietor of a fashionable bazaar store on F street in this city, with a branch at Saratoga, N. Y., turned that establishment into destruction about noon yesterday, causing considerable excitement, as it occurred at a time when that thoroughfare was crowded with ladies. The first intimation that any one had was when the bazaar was closed with the pavement. A crowd at once collected, and the first in the scene found Mrs. Nicolaides in the window with a \$30 vase in her hand, screaming. She was soon followed by her husband.

Frogs milk and undiluted. Not the kind the milkman peddles—from half-starved and city-stabled cows—but condensed pure rich milk, the product of well-fed, high-bred cows as found in Highland Evaporated Cream.

**Probably Fatal Shooting.**

Tony Williams, colored, was shot and fatally wounded about 6 o'clock last night by Bud Spraggins also colored, in the latter's room, at No. 1525 Franklin avenue. Spraggins has sheltered Williams from time to time, but a few days ago the men quarreled because Spraggins prevented Williams from shooting his dog. Williams went to Spraggins' house and raised a disturbance. He attempted to use a knife, and Spraggins drawing his revolver, fired three shots at him. One bullet struck Williams under the right ear and is believed to have penetrated the brain. He was taken to the City Hospital, and Spraggins was arrested.

**Mrs. Winslow's Soothing Syrup** for Children teething, rests the child and comforts the mother, 25c.

**Art Museum Lecture.**

Mr. Chas. M. Kurtz will deliver a discourse at Memorial Hall this evening on "Some Great Artists, Almost Forgotten." The course of lectures being given each Saturday by well-known artists and art connoisseurs have excited considerable interest among art lovers in St. Louis. The next lecture to be given by Mr. W. R. Florence on "The Innocence of Vision" will undoubtedly prove interesting to the champions of nude art.

**To You Have a Working Cough, or any Lung or Throat trouble, come at once Dr. D. Jayne's Expectorant, and don't parley with what may prove to be a dangerous condition.**

**Reception to Wilson Barrett.**

Last night an informal reception was tendered Mr. Wilson Barrett by the Benevolent and Protective Order of Elks at the club rooms. Mr. Barrett and a number of his company were present, and were most professedly gratified. Mr. Barrett gave a short but telling address, and then gave several recitations. Among those present were L. A. Clarke, John W. Norton, C. D. Colman, H. T. Townsend, Charles E. Ware and H. Durand.

**DREADFUL PSORIASIS**

Covering Entire Body With White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left cheek, spreading over my face, and the physician was afraid I would lose my sight altogether. It spread all over my body, and I was told I would die if I did not get rid of it. I was entirely bald-headed; until it broke out on my arms and hands, and then I covered myself with one or more. I covered my entire body, face, head, and shoulders, being unable to move. The white scales fell constantly from my skin, which thinned and became very dry, and would crack and bleed. I had many hundreds of dollars, I was pronounced incurable, and was given Cuticura Resolvent, Cuticura Cream, Cuticura Resolvent, one box of Cuticura, and one box of CUTICURA SOAP. I was cured of the dreadful disease, and am now perfectly well. This I feel is my duty to recommend, as my hair is restored as good as ever, and so is my eye-sight.

—Mrs. McKEELEY,  
Rockwall, Tex.

**Cuticura Resolvent**

The new Blood Purifier, internally (to cleanse the blood of all impurities and poisonous elements), and CUTICURA, the great Skin Cure, and CUTICURA Resolvent, externally (to cleanse the skin, to clear the skin and scalp and restore the hair), have cured thousands of cases where the shelling of skin, hair, and nails, and the skin cracking, bleeding, burning and itching almost beyond endurance, hair falling out, and skin affected terribly. What other remedies have made such cure?

Sold everywhere. Price, CUTICURA, 50¢; SOAP, 25¢; RESOLVENT, 51. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Disease," 64 pages, illustrated, 10¢, and testimonials.

PIMPLES, blackheads, red, rough, chapped skin and oily skin cured by CUTICURA SOAP.

**IT STOPS THE PAIN.**

Back aches, kidney pains, weakness, rheumatism, and muscle pain relieved in one month by Cuticura Anti-Fat Plaster. 35¢.

"There never have been very many big winnings in future books in this country, for the reason, perhaps, that future books never

**MAKES AFFIDAVIT.**

Mooney Replies to McAuliffe's Charges Under Oath.

**A SWORN STATEMENT COVERING THE ENTIRE TRANSACTION.**

Manager Foto's Part in the Negotiations—Croker and Dwyer Turf Monopolists—Track and Stable Gossip—The Oscar-Cycling—Base Ball—Sporting News of All Sorts.

In reply to Jack McAuliffe's statement to the New York reporters that he had loaned Mike Mooney \$500 to post as forfeit for a match with him, the local boxing instructor has made a sworn statement before a notary public detailing every event in the negotiations.

Otto Foto, McAuliffe's manager, came to me yesterday and asked me if I would go with McAuliffe in a four-round set-to in Alton, Ill. For the benefit of class of people I accepted. Immediately after the fight, Dr. J. P. Foy, who I might add, had racing to the amount of \$2,500,000, was present.

Foy, who was a member of the American Boxing Association, and who was not

named Gen. W. H. Jackson, in honor of the proprietor of the famous Hales Meade stud.

The fastest trial shown at the Fair Grounds this year was the one between Duffy's Partner, a 2-year-old gelding, by that famous son of Herald Peter, out of Cheshire, worked out quite a race, and the track record holder, a 3-year-old gelding, by the Duke of Cambridge, worked out a race in which the Duke of Cambridge was beaten \$40,000 and \$20,000 in all \$60,000 among six men. It was a tremendous slaughter.

McAuliffe, the boxer, was up front, which rather surprised me, as I had expected him to be back.

One of the largest winnings on record in future books in England is that of Lecturer—Croker, 1892. There have been many large ones, but none with the figures can be authenticated or divided among so few people. In Lecturer's Cesarewitch the Duke of Cambridge won \$600,000; the Duke of Beaumont, \$60,000; Mr. Wilkinson, \$50,000; John Lang, \$10,000, and others. For, and William Weller, \$10,000, and others. The Duke of Cambridge, \$10,000 and \$20,000 in all \$30,000 among six men. It was a tremendous slaughter.

McAuliffe's party won a neat sum over Castaway, 18, for the same sum in 1892, but it was not very good.

"One of the largest winnings on record in future books in England is that of Lecturer—Croker, 1892. There have been many large ones, but none with the figures can be authenticated or divided among so few people.
